We do not think there is

The Results of Idleness—

The odium which rests upon the work of the hand has exerted a baneful influence, not only in Hickman, but the world around. The theory that idleness is more honorable than toil, that it is more respectable to consume what others have produced than to be a producer of wealth ourselves, has not only robed society of an enormous sum but it has created an almost impassable gulf between the leisure classes and those who support them. Because some imagine themselves above work, while others are before them nothing but a life of drudgery, there is constant warring and much bitterness. When men and women become ashamed of doing nothing and strive to give society full compensation for all they receive from society, there will be harmony between the classes, and not until then.

We must fully learn the lesson that employment at some useful vocation is essential to the physical health, intellectual development, and moral growth. We ought to be prepared to present in the lives of our children examples increasing in number, of men and women who find delight in contributing to the welfare of their fellow beings, and this ought not to be difficult, for every department of human activity has a fascination of its own.

A Day in June—

Just a tiny patch of moonlight,
Just a summer night in June;
Just a hammock, a piazza,
Just a dreamy distant tune;
Just a drowsy girl beside you,
Just an arm round her waist,
Just a pressure light of two lips,
Just a parting made in haste,
Why are lovers all molested
Just at moments just like this?
Why are unjust people passing
Just in time to see that kiss?

Verdict in Set Aside.

The court of appeals last week re-
versed the Fulton circuit court in the
case of Artie Dupree against the I.
C. railroad company, holding that on
the trial the judge should have given
intemperate instructions to the jury
to find for the railroad.

On the trial of the case the jury
gave a verdict for \$2,000 in favor of
the little girl, who was run over at
a railroad crossing in Fulton and both
her feet cut off. She is the little
daughter of Mr. and Mrs. Lee Dupree,
of Columbus, and this action of the
court of appeals will operate to de-
prive her or them of any compensation
for the child's terrible injury.

From Chicken to Pie—

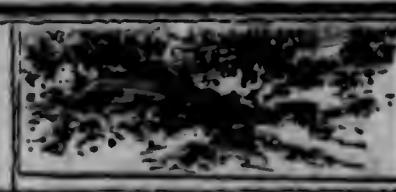

The picnic last Friday given by the
members of the Baptist church to
their members and those of the Pres-
byterian church was enjoyed by a
large crowd, at Sulpher Springs Park.
Swings and games were enjoyed by
the young folks. The dinner prepared
for the occasion by the good ladies
cannot be described—it ran the
scale from fried chicken to mince pie.
About three in the afternoon, cream
and cake were served.

AFTER - THOUGHTS

On Many Different Subjects

Are Raising Better Stock—

There is a growing disposition among the farmers of Fulton county to raise a better grade of live stock of all kinds—horses, cattle, mules, hogs, sheep and even poultry—which means much for the future prosperity of the county.

—o—

An Expensive Judiciary—

The State's judiciary seems to be going backward instead of forward. The legislature at its last session saw fit to increase the salaries of circuit judges, \$1,200, notwithstanding it is in spirit, if not in letter, in violation of the constitution. This was done, it is said, in order to get better material for circuit judges, and also to allow them to live in that kind of style necessary for men of their position.

This \$1,200 increase per annum, added to the \$2,000, the original salary, brings them up to \$4,200. The people will not brace my better judges at \$4,200 a year than they have had at \$3,000. Besides the taxpayers of the State will be called upon to pay many thousands of dollars for these salary increases without receiving any benefits.

—o—

Little Margie's Slang—

Slang is tabooed in the home of a West Hickman family principally because there is a bright little girl who displays a persistent aptitude in relating expressive but slang phrases.

The other evening at supper, the mother, father and daughter drifted into the vernacular and a fresh start was necessary. The little girl started it. "I'm certainly not struck on this bread," she remarked.

"Margie," said her mother, "you want to cut that slang out."

"That's a peach of a way to correct the child," commented the father.

"I know," replied the mother, "but I just wanted to put her wise."

—o—

Editors Awful Liars—

A preacher said: "You editors dare not tell the truth, your newspaper would fail."

The editor replied: "You are right—and the minister, who will at all times, tell the truth about his members, living or dead, will not occupy a Hickman pulpit more than one Sunday, and will find it necessary to get out of town in a hurry. The press and the pulpit go hand in hand with white-wash and kind words—magnifying small virtues into larger ones. The pulpit, press and grave-stones are the great mint-making Triumvirate."

The good minister went away looking very thoughtful, while ye editor turned to his work, telling about the surpassing beauty of the bride, when in fact she was as homely as the McGeecheon Row.

Reason For Raising Rates—

Railroads are forced to increase their freight rates on account of wages, prices of materials, taxes and damage suits. All of these things contribute to the increase of freight rates, all of which must come out of the consumer after all.

—o—

Johnson Tops St. Louis Market—

From the St. Louis Live Stock Reporter, May 27, we clip the following: "H. P. Johnson, a well known stockman and regular patron of this market from Hickman, Ky., was on the market with a load of sheep including 86 head of spring lambs that averaged 69 pounds and sold at \$1.50. These lambs not only sold at the top of today's market but they brought more than any lambs from Kentucky in several weeks."

Mr. Johnson has shipped 31 pairs of stock during the month of May. The prevailing high prices, he says, are causing a renewed interest in the live stock industry of Fulton county.

—o—

This Hour of Fragrance—

I am like a forest once cut down, the new shoots are stronger and livelier than ever. I am rising, I know, toward the sky. The sunshine is on my head. The earth gives me its generous sap, but heaven lights me with the reflection of unknown worlds. You say that the soul is nothing but the resultant of the bodily powers. Why, then, is my soul more luminous when my bodily powers begin to fail? Winter is on my head, but eternal spring is in my heart. I breath at this hour the fragrance of the lilacs, the violets and the roses, as at twenty years. The nearer I approach the end the plainer I hear round me the immortal symphonies of the worlds which invite me. It is marvelous, yet simple. It is a fairy tale, and it is history. For a half century I've been writing my thoughts in prose and in verse; history, philosophy, drama, romance, traditions, satire, ode and song. I have tried all. But I feel I have not said the thousandth part of what is in me. When I go down to the grave I can say like many others: "I have finished my day's work." But I cannot say: "I have finished my life." My day's work will begin the next morning. The tomb is not a blind alley; it is a thoroughfare. It closes on the twilight; it opens on the dawn.—Victor Hugo.

—o—

Worrying About the Future—

Some cheerful idiot is now harassing the public mind by present scientific calculations to prove that the comet will strike mother earth upon her return visit seventy-five years hence. Don't believe it.

King Edward as a Mason—

The late King Edward was the most prominent living Free Mason. For nearly forty years he was identified with the order, during which time he served as grand master of the grand lodges of England, Ireland, Scotland and Wales, and also grand prior of the order of Knights Templar in

England and grand patron of the Ancient Accepted Scottish Rite of Free Masons in the United Kingdom, having received the 33rd and last degree in that branch of Free Masonry. There was not a member in the world who took a deeper or more active interest in the affairs of the Masonic order. Masonry everywhere received his hearty and unqualified support, and his presence at important Masonic functions was always sought for and usually with success.

THE HEART OF YOUTH.

We have been told that as long as we keep our hearts young we need have no fear of the depressing loneliness of advancing years, and many writers more or less experienced in such matters have suggested many ways in which we can accomplish that desired end. No two natures, however, are alike, and it follows that no set of hard and fast rules can be made to apply to each individual personality. The man or woman who passes through life alive to the blessings which abound on every side rarely ceases to become an active contributor to the lives of others, and as long as a person actually participates in any work, large or small, the influence of his personality is bound to be felt and his counsel regarded. It is only when one has tired of the game, or enters only half-heartedly into affairs outside of his own special interests that he ceases to exercise any influence, and his individuality is no longer recognized. Enthusiasm seems in some way to be an attribute of the youthful character; at any rate, it is far easier to become interested in what is going on in our immediate circle when the pulse beats high and the blood courses warmly than in later years when so many of us are concerned only with our own affairs and evince but small interest in the doings of others.

In the good old days they used to have signboards at the crossroads in the country region to point the pilgrim on his way. It was always a cheery sign. It spoke a welcome to the stranger. It indicated a disposition to be helpful. But these signboards are nearly all gone. Only now and then can one, and then it seems like the relic of a bygone friendship. It seems to say to the stranger: "We once took an interest in you, but we do so no longer; if you don't know the way, what do we care?" That is the situation today; a forlorn one, indeed; a cheerless one. No little sign thrown out, saying: "We are thinking of you, we care for you, we want you to go right." Now, this ought not to be. There should be little signboards to greet him, and to tell him the way he ought to go. This thought is getting some headway in Massachusetts, where there is an effort to restore the signboards, and to give to the stranger the help of knowing where he is.

There is a new reform out in Iowa, and it is started by 18 young ladies, prominent in social circles, who have at last discovered the abomination that exists in mere gossip, and so they have organized to suppress it, says Ohio State Journal. They call their organization the "Antigossip society." This is a fine effort. It means intellectual and moral uplift. It means that conversation shall deal with real things—with science, philosophy, literature, history, nature and those things that adorn and uplift life. It is not to be thought for an instant that it is the young women alone that need to organize for this high purpose. The male section of mankind needs just such a reformatory movement. We might say they need it more than the women.

Maj. Gen. Leonard Wood, who is on his way as special envoy from the United States to the centenary celebration of the independence of the Argentine republic at Buenos Ayres, stopped at Havann, where the former American governor of the island had a reception which left no doubt as to the place he holds in Cuban hearts. In fact, it may be said he showed them how to govern themselves, and the success they have attained is a tribute to the effectiveness of his lessons.

Two baseball fatalities in one day—one at Freeburg, Ill., and the other at Troy, N. Y.—will be cited by football enthusiasts as evidence that the gridiron is not the only place where sport is sufficiently violent at times to cause death. But if the number of the games and the thousands of players are taken into account, it will appear that the risks of baseball are infinitesimal in comparison with those of football.

In Japan, day laborers get 20 cents a day and women servants receive 8 cents a month. Our informant does not explain whether the women servants get Thursday afternoons off or not, but we suppose they do. Our indignation should be at once aroused if we thought they didn't.

SOUTHERN COLLEGES GET GOOD SUM FROM EDUCATION BOARD.

\$113,000 Set Aside for Experimental Work in South—Professors in Secondary Schools Alated.

New York.—Appropriations of more than \$700,000 were made Tuesday by the general education board for the endowment of work of various colleges and for agricultural work in the South.

In addition \$113,000 was appropriated for demonstration work in agriculture in the South, under the supervision of Dr. Seaman A. Knapp, of the United States department of agriculture. This is designed to supplement the work of the department, especially in states outside the territory affected by the boll weevil, to which the department does not extend this work.

Another appropriation made was \$31,450 for professors of secondary education in the South. They are members of the faculty of various state universities, who, under salary from the board, establish high schools as feeders for the universities.

Under their direction 703 public high schools having been established in the South in the last five years, and 316 new buildings have been erected at a cost of \$5,875,780.

HEAVY RAINS HELP COTTON

Corn Hurt, But Other Crops Reported Doing Well.

Washington.—Unfavorable weather in the great corn growing states generally satisfactory conditions over the entire cotton belt, satisfactory progress in vegetable growth and the usual farm work in the Atlantic coast states, generally favorable weather over the districts from the Rocky mountains westward, but very dry weather in California, Arizona, portions of New California, Arizona, portions of New Mexico of the weather for the week.

Of general conditions, the bulletin says:

"The week as a whole was decidedly unfavorable over the great corn growing states."

"Good rains occurred over all parts of the cotton region, except in the southern portions of Alabama and Georgia, along the coast of South Carolina and over a portion of Florida.

"Heavy and well distributed, rains occurred in all portions of the cotton growing counties of Texas and rainfall sufficient for present needs occurred over most of Oklahoma."

SUNDAY SCHOOL CONVENTION

Convened to an End—Children Take Prominent Part.

Washington—Children took the principal part in the closing session of the sixth convention of the World's Sunday School Association. Dressed in costumes of most of the nations of the world, and carrying the flags of those countries, preceded by the "Conquest flag," which bears a cross and the words "By This Sign, Conquer," a long line of them filled the front of the big platform and later marched through the aisles of the immense hall, singing.

Columbia, S. C.—Col. William T. Brock, assistant adjutant and inspector general of South Carolina, was accused by Charles N. Cabaniss, a retired lieutenant of the United States army, of padding expense accounts incident to the inspection of the National Guard of the state before the court of inquiry called to investigate charges of political treachery and enlarged expense accounts. Lieut. Cabaniss has been assigned to audit the inspections of the National Guard of South Carolina.

Negro Refused Lower Floor Seats. Damages Denied.

Chicago.—The question of whether a theater has the right to draw the color line and to refuse to sell tickets for lower floor seats to negroes was presented to a jury in Judge Walker's court in the suit of George A. KENTUCKY GLEANINGS

WHAT IS GOING ON IN DIFFERENT SECTIONS OF THE COMMONWEALTH.

SHEEP MUST BE DIPPED.

Chief of Government Bureau Orders Shipments First Sent to Louisville.

Frankfort, Ky.—A letter from A. D. Melvin, chief of the United States government bureau of animal industry, was received by Commissioner of Agriculture Hankin, in which it is ordered that all sheep shipped from Kentucky must first be sent to Louisville to be dipped no matter in what part of the state they may be raised. The letter, which is the most important to sheep raisers that has been received by Hankin since the federal quarantine was ordered, says:

"All dippings, required under the regulations in order that sheep may be moved interstate, shall be done at points where federal inspection is maintained. Louisville is, at present, the only place in the state where dipping facilities are available and bureaus inspectors stationed, but if proper yarding and dipping facilities should be installed at other points the secretary of agriculture will, no doubt, consider the advisability of maintaining inspectors at such places for the purpose of inspecting and dipping sheep for the convenience of the shippers.

"Sheep intended for interstate movement as the result of being dipped must be accompanied by a certificate signed by an inspector of this bureau, showing the date and manner in which the work was performed as well as other necessary data. Bureau supervision of the dipping of sheep is supplied without expense to the owner."

SESSION CLOSED.

Knight Templars Elect Officers and Select Lexington for Next Masting.

At the meeting of the Grand Commandery of Kentucky Knight Templars, in Winchester, officers for the ensuing term were elected as follows:

John G. Cramer, of Lexington, right eminent commander; William Yermain, of Versailles, right eminent deputy commander; Lee L. May, of Owensboro, eminent grand generalissimo; Thomas P. Satter White, Jr., of Louisville, eminent grand captain general; Mason P. Brewer, of Frankfort, eminent grand senior warden; Charles N. Smith, of Danville, eminent grand junior warden; Henry P. Barnett, of Henderson, eminent grand prelate; Robert C. Strother, of Richmond, eminent grand treasurer; Alfred H. Hyatt, of Covington, eminent grand recorder; Arthur N. Richardson, of Ashland, eminent grand standard bearer; Frederic W. Hardwick, of Louisville, eminent grand sword bearer; Taylor M. Eells, of Lebanon, eminent grand warden; Albert A. Hazelrigg, of Mt. Sterling, eminent grand captain of the guard.

STRUCTURE GAVE WAY.

Corydon, Ky.—A crash that shook the whole neighborhood, a cloud of dust flanked by scared workmen, and the new concrete store building at Corydon went down in ruins.

The store building was being erected in Corydon for Tom E. Jones, for general merchandise purposes.

It was a commodious building and it had been planned to construct it entirely of concrete—concrete floor, concrete walls and even a curved concrete roof.

When the time came for removing the false structure and the timbers were pulled away there were warning sounds as of cracking, and the men rushed to places of safety. Then the roof fell and carried with it the south wall, leaving the new building practically a ruin.

Yes, boys will be boys; and why should they not? Now, a boy should go to school, but there is no particular pleasure in that, for fun he wants and fun he will have. Your boy should be always nice and clean; it makes him look well—but even that does not satisfy his frisky nature.

A boy should go to meeting, once or twice during the week, but, good as he is, he will crave for pleasure. We love a boy with a merry twinkle in his eye; he looks so cunning; and, besides, he will need all the spirit of a young colt before he gets through the world. If properly trained it will be to him what steam is to an engine. Did it ever occur to you to turn boy yourself and lay aside your dignified, serious air? Try it. Play with them; laugh with them; talk with them; sing with them; and, when night comes, you will be a man.

COURT ACCEPTS BUILDING.

Frankfort, Ky.—The Frankfort county fiscal court met to inspect the new court house and pass on the question of accepting it from the contractors, as having been completed according to contract.

The members of the court found that everything had been compiled with according to specifications and that the work done was entirely satisfactory.

After the inspection was completed, the court voted unanimously to accept the building as completed.

INCREASED VALUATION.

Kentucky Equitization Board Makes a Ten Per Cent Increase.

Frankfort, Ky.—The trial assessed value of Kentucky's property in round numbers will be \$780,000,000, a little over an average increase of 10 per cent.

The following is the final report of the board:

Ten Per Cent—Anderson, Bourbon, Boyd, Breckinridge, Calloway, Campbell, Carroll, Cumberland, Edmonson, Floyd, Garrard, Grayson, Green, Jessamine, Lawrence, Leslie, Letcher, Lewis, Livingston, Lyon, Madison, Mason, McCracken, Muhlenberg, Oldham, Owsley, Perry, Pulaski, Robertson, Rowan, Shelby, Simpson, Wayne, Whitley.

Five Per Cent—Boone, Christian, Clay, Crittenden, Daviess, Elliott, Estill, Fleming, Fulton, Hancock, Jackson, Johnson, Larue, Montgomery, Ohio, Rockcastle, Russell, Scott, Union.

Fifteen Per Cent—Calloway, Graves, Hardin, Harlan, Harrison, Henderson, Hopkins, Magoffin, Marshall, Nicholas, Owen, Trigg, Warren, Webster.

Twenty Per Cent—Holt, Hickman, McLean, Powell, Spencer, Wolfe.

Twenty-five Per Cent—Morgan.

Twelve Per Cent—Jefferson, Kenton.

The counties increased on lands and personality only follow: Allen, 10; Breathitt, 10; Caldwell, 20; Carlisle, 25; Clinton, 10; Lee, 5; Logan, 5; Meade, 15; Taylor, 5; Todd, 20.

The other counties that were increased follow: Bellard, land and personality 25, town lots 10; Franklin, land and personality 5, town lots 10; Grant, land and personality 5, town lots 20, town lots 10; Henry, lands and personality 20, town lots 10; Laurel, land and personality 10, town lots 5; Pendleton, land and personality 20, town lots 10.

The assessments in the counties not mentioned were left as reported.

SAW COMET BEFORE.

Lexington, Ky.—Mrs. Susan Barnaby, of this city, says she remembers distinctly the last visit of Halley's comet. She says the coming of the sky tramp at that time was not so widely heralded as was this visitation, and that the people hereabouts were much alarmed. Mrs. Barnaby says that after the comet had completed its trip across the sky and started back from the west there was a meteor shower.

BRIEF TELEGRAMS.

Campbell, Ky.—The 6-year-old child of Joe Allen, a prominent farmer of this county, was burned to death. The child was playing around where his mother was burning the grass of the yard, when its clothes caught fire and was so seriously burned that it lived only about one hour.

Owensboro, Ky.—The will of Eldred Crabtree was admitted to probate in circuit court. He leaves \$500 to each of the following institutions: Louisville Baptist Ministers' Aid society, Louisville Baptist Orphans' home and Louisville Masonic Widows' and Orphans' home.

Hazel Patch—Will Hubbard, a section hand, was shot in the side and killed. The shooting occurred in a box car. A 14-year-old boy, Hoy Turner, was the only person in the car when Hubbard was shot. The Turner boy states that Hubbard shot himself.

Paintsville—Chief Justice Henry S. Barker, of the Kentucky court of appeals, who some months ago was chosen by the trustees as president of Kentucky University, Lexington, vice James K. Patterson, resigned, has decided not to accept the presidency.

Louisville.—In a report submitted at a meeting of the Louisville Real Estate association, C. T. Thomas, chairman of the water rate committee, stated that the water rates in Louisville will be reduced at least 15 percent before January 1, 1911.

Louisville.—It was developed at the regular annual meeting of the Lincoln Institute, held at the Galt house, that there was a fund of \$400,000 in the treasury for the establishment of the proposed industrial school for negroes in Kentucky.

Campbell.—Osa Campbell, indicted in the circuit court of this county on charge of arson, and who forfeited a bond at the last term of the court, was captured at Brandon, Wis., and brought back to this place.

Carlisle.—Thirteen quarts of whisky, alleged to have been brought into this city, where local option is in force, for purpose of sale, were seized by policeman Samuel Jerry and turned over to Police Judge J. E. Plummer.

Louisville.—Work on the new Kentucky and Indiana bridge and railroad bridge, to span the Ohio at this city, will be started not later than July 1. Bids on the work will be opened June 1.

Frankfort.—Although Gov. Willson offered rewards prior to January 1, 1910, he released rewards \$500 each for the arrest and conviction of the men who took part in the Hopkinsville night-riders raid.

Frankfort.—Gov. Willson issued a flag day proclamation calling attention of the anniversary of the birth of the flag and suggesting that everybody show allegiance to the flag on June 14, and all days.

Mayfield.—Dr. Louis Schwab, mayor of Cincinnati, read an essay upon cancer, its origin and treatment, before the Mason County Medical society here.

Henderson.—James Murray, aged 57 years, died suddenly from acute indigestion. He is survived by wife, one son and three daughters.

A Quick Cat.

Some years ago the proprietor of a hotel in southern New Hampshire told the following story: He said that when he was a boy he had occasion to go into the garret of his house one morning and that the family cat followed him up the stairs. One of the windows was open, and when they entered the garret a frightened mouse jumped out of the window, and the

THE PRESIDENT'S FORTHCOMING VACATION

BY WALDON FAWCETT

THIS quaint little community of Beverly, Mass., is pretty certain to enjoy the distinction of ranking as the "summer capital" of the United States so long as William H. Taft is president. The Tafts chose the little seashore resort for a vacation retreat for the first summer of the present administration somewhat as an experiment. No member of the family had previously spent much time on the famed "North shore" of Massachusetts and consequently they were obliged to accept largely on hearsay its claims to pre-eminence as an ideal summer playground. However, after their first season at this pleasure domain the White House household was more than enthusiastic regarding the locality and forthwith decided to return there in future summers. Hence the action of the president in extending his lease on the cottage he occupies at Burgess Point.

For a decade and a half prior to the election of William H. Taft as president, the present occupants of the White House, together with the members of all the other branches of the very numerous Taft family, had been wont to gather each summer at Mur-

RESIDENCE OF JOHN HAY HAMMOND

ray Bay, Ontario, a picturesque resort on the north bank of the St. Lawrence river. They have not, to this day, lost any of their affection for the hamlet that was so long the rendezvous of the Taft clan, but Murray Bay is, of course, in Canada, and the president is not supposed to go beyond the borders of the United States, even for a vacation. This put up to the president and the first lady of the land the problem of selecting a new summer domicile.

That the North shore of Massachusetts was chosen was largely due to the influence of Miss Mabel Boardman, the well known Red Cross leader, and Mrs. Taft's closest personal friend. The Boardmans have long had summer home at Manchester-by-the-Sea, which is but a few miles from Beverly and Miss Boardman, like her parents, is more than enthusiastic regarding this "summer colony belt." She accompanied Mrs. Taft on a house hunting expedition last spring, and was her chief adviser in the selection of the roomy frame cottage which was finally chosen as the "summer White House."

One factor in the satisfaction of the Tafts, and an influence in the decision to return to Beverly this summer, is found in the circumstance that this vacation retreat proved beneficial to Mrs. Taft. It may be remembered that Mrs. Taft broke down in health only a few weeks before the time set for the departure of the family for their summer home. When the physicians prescribed absolute quiet some of the friends of the mistress of the White House were dubious as to the effect of Beverly, for although the town is a quiet enough community, the whole North shore of Massachusetts

leaders so that a "summer capital" quickly springs into existence as a setting for a "summer White House."

However, all misgivings to the contrary, Mrs. Taft was enabled to enjoy a thoroughly quiet and restful summer at Beverly, and this program will be repeated this season, for the health of the first lady of the land continues anything but robust. The Taft cottage being located on a point of land and surrounded by water on three sides, is well located with reference to quiet, and also for the securing of the sea breezes which have proven Mrs. Taft's best tonic. On the land side the house is located only about a hundred yards from a trolley line, but it is well screened by trees, and the fact that the cottage may be approached by land from only one direction makes it a comparatively simple matter for the secret service men to intercept unwelcome callers.

President Taft has planned for the summer of

tree that the movement to uncover the old house and erect a lasting monument to the defenders of the country who fell there has received such an impetus.

Mr. Higgins, who, although of Irish extraction, is an ardent American patriot, was touched by the survival of the old willow and looked upon it as a mute appeal to those now living to remember the men who fought and died that the country might become free forever. His attention was called to the spot by a book written by Miss Frazer in which she gives the history of the old Stone house at Gowanus. Miss Frazer's attention was first called to the house by a painting executed by Louis Grube in 1846 at the order of George Anderson, her grandfather. Miss Frazer spent her girlhood at the home of her uncle, Thomas Easton of Newport, R. I., to whom the painting had been sent, and she took a great interest in the picture and the story attached to it.

At a dinner given recently by the Prospect Heights' Citizens' Association at which Mayor Gaynor, who is a neighbor, was present, Mr. Higgins aroused the enthusiasm of the gathering by his appeal for the restoration of the old Stone house and the consecration of the plot surrounding it to the memory of the revolutionary heroes who fell there.

The old Stone house of Gowanus is not visible now and very few of the present generation know anything about it. The plot where it stands was very low—much lower than the surrounding ground—and it became a dumping ground. As a result the historic house has been buried by 16 feet of earth. A willow tree which stood at the entrance to the old house was also buried, but from its branches rose another willow tree, which is still standing, and it is because of this

1910 a much longer and more restful vacation than he was able to enjoy last year, when, it may be recalled, the extra session of congress and the fight over the tariff kept him in Washington until well into August. The president hopes to get to Beverly early in June, and with the exception of occasional trips, mostly to nearby points, will remain there throughout the heated term. A year ago the president planned to devote most of the summer of 1910 to a trip to Alaska—a journey that would have far surpassed in point of time consumed and number of miles traveled, the famous transcontinental "swing around the circle" in which Taft indulged during the autumn of 1909. However, various influences, primarily the state of Mrs. Taft's health—have caused the president to abandon this Alaska trip, and he will rest quietly at Beverly save for visits to fairs, conventions, etc., none of which will consume more than a few days.

The president is planning a very busy and beneficial summer on the vicinity of Beverly golf links. The courses in the vicinity of Beverly include some of the finest and also some of the most difficult in the country, and the chief magistrate's summer program calls for three or four hours of golf every day. He will not lack for worthy partners and opponents either. His especial chum "Jack" Hammond and W. J. Boardman, have cottages nearby; his brother, C. P. Taft of Cincinnati, also a golfer, has leased a cottage on North shore, to be near his brother this summer, and he will also have with him Capt. Archibald Butt, who in addition to serving as the president's military aide can likewise always be drafted for a golf game. Next to golf the president takes delight in motoring on the magnificent roads of the North shore—perhaps the finest in America. Several of the White House automobiles are transferred to Beverly, and these place the president within easy reach of three or four different golf courses.

Where Men Fought and Fell

Miss Frazer, who is very modest about her connection with the matter, told a reporter how she came to discover the site of the old Stone house.

"After much research," said she, "I found a bronze tablet that had been erected many years ago on the front of the two-story brick house that stands at the corner of Fifth avenue and Third street. It was almost hidden by grime, and in the shadow of the 'L.' It contains this inscription under a picture of a battle field:

"Here on the 27th of August, 1776, 250 out of 400 brave Maryland soldiers under the command of Lord Stirling were killed in combat with British troops under Lord Cornwallis."

"I found that the old Stone house around which the battle was fought, and which was also called the Cortelyou house, had been buried under 16 feet of earth, nobody knowing that it was famous 75 years before the battle of Long Island was fought in and around it. It was built in 1699 by Nicholas Veche, a Dutch colonist, and in 1790 it passed to the Cortelyous, the price being \$12,500. In 1816 the Litchfields, who now own it, bought the property from the Cortelyous. It stood on the banks of a brook emptying into Gowanus creek, 15 or 20 feet below the present street level, and was famous as the largest and most substantial house on Long Island at the time.

"The spot became a city dumping ground, and in 1846 only the upper part of it was visible. Some one took away the iron brace that supported the roof and the roof fell in. Gradually it was covered up entirely, but I believe that when it is unearthed the lower portion of the house will be found in a good state of preservation."

D. H. Toombs was in Union City on business one day last week.

Miss Mozelle Brasfield has returned from school at Lexington, Tenn.

T. A. Prather, Jr., and Elmer Threlkeld were in Union City Saturday.

Miss Georgia Burrus has returned from a visit to Union City friends.

Miss L. G. Clark has returned from a visit to Martin and Greenfield friends.

Miss Mary Briggs, of Hickman, visited her cousin, Miss Georgia Burrus, last week.

Miss Lunsford, of Hickman, is the guest of W. B. Clark and family for a few days.

Henry Corum and wife, of Obion county, visited M. L. Corum and family Tuesday.

Mrs. Sanders, of Dalton, Ga., is spending the summer with L. C. Maddox and family.

Mrs. Mable Gaston has returned to her home in Jackson, after a visit to Mrs. T. A. Prather, Jr.

Misses Mary Burrus and Fannie Dale Brasfield have returned from a visit to Greenfield, Tenn.

Miss Ella Corum has returned to her home in Hickman after several days' visit to Miss Mary Maddox.

Mrs. Sudie Fowler is here from Paducah visiting her mother, Mrs. Sanders, at the home of L. C. Maddox.

Mrs. McDaniel has returned to the home of her daughter, Mrs. T. A. Prather, after spending some time with her neice, Mrs. P. W. Prather, at Woodland Mills.

There will be preaching at Poplar Grove next Saturday evening at 2 o'clock, also on next Sunday morning and evening by Eld. W. H. Williams. These sermons will be of interest to all. Dinner will be served on the ground Sunday.

CHARLES A. KENNEDY.

The following extracts are from the Clinton Gazette relative to the death of C. A. Kennedy, father of Ascher Kennedy, of this city:

Mr. Kennedy's death occurred May 26, at San Angelo, Texas, where he had been for his health since last July. The remains, accompanied by members of his family, arrived here Sunday at 10:40 a.m., and the funeral was conducted at 2 o'clock in the afternoon from the residence of Mr. Joe W. Bennett, a lifelong friend of the deceased. The funeral sermon was preached by Rev. J. W. Waters, of Greenfield, Tenn., and the Woodmen of the World had charge of the interment, Mr. Kennedy being a charter member of the Wingo camp. Consul Commander Headles and a number of Sovereigns from that and other camps were present and assisted Oak Camp of Clinton in the burial rites.

There was a large concourse of people at the funeral, a number coming from Wingo, Hickman, Fulton and other places around. Mr. Kennedy's sisters, Mrs. Mattie Warren and Mrs. Alice Combs, of Hardin, Ky.; his brother, H. V. Kennedy, of Murray, and his nephew, W. W. Jones, of Hardin, were present; also his son, Ascher Kennedy and wife, and relatives of Mrs. Ascher Kennedy, from Wingo.

Mr. Kennedy was married three times, his last wife and one son, Wendell, surviving him, besides three children of his first marriage, Ascher and Bernard and Mrs. John Walker, the latter of Wingo.

Mr. Kennedy was in his 52d year, and was a native of Marshall county. He came with his father to Wingo in his boyhood, and afterwards taught school in this county. In 1890 he was elected county school superintendent of this county, and served until 1898. Probably a year after he retired from office he went to Wingo and became a successful business man there. In July last year he moved to Texas in the hope of benefitting his health. He engaged in business at Riviera and was doing nicely when stricken down with the illness which caused his death.

—O—

Hugh Ed Curlin was here from Union City, Tuesday.

The taxes due the state from Fulton county, including the recent raise is \$23,842.

Miss Leah Barry has procured a position as assistant bookkeeper with the lumber firm of W. A. Dodds.

About fifty Hickmanites attended the dedication services of Mt. Zion Church last Sunday. The attendance is estimated at from 500 to 800. The good people of that neighborhood eclipsed all former efforts in the dinner served, and those who attended say it was the most sumptuous feast they ever saw. A request was sent out through the local newspapers asking that no auto be driven to the church that day, and the automobile headed. Not one was seen. The day was ideal and the crowd enjoyed the services and hospitality of old Mt. Zion.

The B. A. F. Club, of State Line, will entertain at the home of Miss L. G. Wilson Clark, Wednesday evening, June 8th. 150 handsome invitations have been mailed to their friends, indicating that this will be one of the swellest social events of the season at this little city. The members of this club are Misses Luella Rice, Wilson Clark, Lillian Clay, Myrtle Saunders, Fauchon Brasfield, Linnie Threlkeld, Laasie Curlin, Loyce Linder, Alline Roper and Mary Burrus.

BILL JOHNSON (not our livery stable Bill nor a relative of Sheriff Johnson) was arrested last Friday by county officers on a charge of being drunk and disorderly. He was released without being fined because he is the next thing to blind. A man with two good eyes can't have much fun here now, and his release was nothing more than right. Johnson is watchman for the Mengel Box Co. His hilarity on this occasion consisted of pulling the trigger of a .44 and throwing hot lead too promiscuously.

Hickman Lodge No. 761, F. & A. M., treated its membership to a banquet and smoker last Monday evening at the Masonic hall. The attendance was unusually large, strange to say and all stayed for the spread, consisting of barbecued mutton, cold drinks, etc. Several gentlemen won out in the endurance contest by a close finish, but Dr. Hubbard was awarded the leather medal.

Among other things, this body agitated and discussed the building of a new hall. The move was heartily endorsed by all present. Should the proposition be carried out, the new quarters will contain reading rooms, club rooms, dance hall, etc., all of which are certainly needed in this city.

Mrs. P. C. Ward and children, of Walnut Log, visited here this week.

Lee Atwill who is attending school at Lexington, returned home Monday.

The Ministers' and Members' Meeting of the West Kentucky Baptist Association met at Moscow this week.

Miss Nellie Harris left for her home in Paris, Tenn., this morning after a short visit to her brother, Oce Harris.

Austin Wilson, who is attending McFerrin School at Martin, arrived in Hickman this week and will spend the summer with his parents, Rev. G. W. Wilson and wife.

On account of Children's Day exercises there will be no preaching at the Methodist church at the morning hour but regular services will be held in the evening, beginning at 8 o'clock.

Jim Stingo, colored, lost his residence, one mile above town, Monday at noon by fire, which started from a defective flue. Jim carried no insurance and the house and contents were a complete loss, amounting to about \$500.

Percy Jones, always hustling, doing something new, has responded to the demand for late lunches, etc., and hereafter his cafe will be open day and night. The man who happens to come in as late as mid-night with a "hungry chill" will find the latch string hanging out at Jones' Cafe and an exhaustless quantity of good things to refresh the inner man.

The school election held in this city yesterday, was as usual, unknown to many of the voters, and the small vote polled is a sad commentary on the interest taken in this matter by our citizens. The few notices tacked up on telephone poles, announcing the coming election and torn down by wind and rain a few hours afterward, are a "light under a bushel" so far as the good they do. In remote country districts, where there are no newspapers and this is the only means of informing the public, the law prescribes well. But in cities, where there is no end of horse bills, starch signs, kilumquilk pill placards, etc., dangling from all poles and fences, the average citizen does not look here for election notices, but rather to his newspaper. Hereafter there will be no excuse on the part of the Board for not making these elections public. If they feel too hard up to pay for such notice in the Courier, we will gladly donate the space in the interest of education. This does not mean we are not getting good men on the board, but such practice will sooner or later offer opportunities to the "dark horse" who would sacrifice principle for mercenary gain and then, too, every voter is entitled to this information. It will create a greater interest in school work.

TWO NEW TRUSTEES.

An election of school trustees was held in this city Wednesday, resulting in the election of E. D. Johnson and R. L. Bradley as new members of the board, taking the place of C. L. Walker and J. R. Brown. The vot was as follows:

E. D. Johnson, 124.
C. G. Schleuker, 111.
R. L. Bradley, 72.
J. R. Brown, 70.

Mr. Walker refused to allow his name to be placed on the ticket for re-election and Mr. Brown was beaten by a very small margin. Both of the outgoing members were good ones, and the new ones coming in will be good men for the place. They will serve three years.

The Board is now composed of W. C. Johnson, W. A. Johnston, Tom Dillon Sr., Julian Choate, Marion Provost, Judge J. W. Cowgill, E. D. Johnson, C. G. Schlenker and R. L. Bradley.

NOTHING DOING HERE.

The John B. Gordon Chapter U. D. C. has completed final arrangements with the management of The Great J. Frank Hatch Shows to bring their monster aggregation to Union City for a week's engagement for their benefit May 30th to June 4th inclusive.—Union City News-Banner.

The meetings held on last Thursday night and on Monday night following to arrange for a Fourth of July celebration in Union City resulted in the creation of a fund amounting to nearly eight hundred dollars.—Union City Commercial.

This calls to mind the fact that Hickman has less doing in the way of amusement than any other town her size in the world.

Too many of our business men think of nothing but the almighty dollar—they don't want to lose a day's time for recreation or gala days.

But, after all, the time and money spent in entertaining the populace occasionally is a good investment. It may be a fair, a gun shoot, a carnival, horse show, circus, 4th of July celebration—it doesn't matter—whatever brings a crowd brings new business to that town following the event. All that is in sight this year in the way of amusements in a gun shoot, S. L. Dodds alone deserves credit for getting up this feature. He is wide awake to the good of such things, and we need a few more fellows of his type.

This old dope about certain things "carrying off all the money," is all hog-wash. If people can't come to Hickman to spend it, they are going to some other town. You can't keep people from seeking amusement. Hundreds of dollars will leave Hickman July 4th on account of the enterprise of some of our neighboring cities, while their tight-wads will sit at home and twirl their thumbs. Yet you couldn't drive this idea into the heads of some with a maul and glut. They are content to sit beneath the UPS tree's shade and bathe their spirit in the soothing old adage "a bird in the hand is worth two in the bush."

What we need is a few wideawake fellows on the head of things who will not tread lightly for fear of wakening the sleeper. Push and aggressiveness will get results; there are hundreds of opportunities for better things in Hickman and surrounding country that are waiting development.

THE LADIES OF THE PRESBYTERIAN CHURCH WILL SERVE SUPPER DURING THE GUN SHOOT IN THE BUILDING LATELY OCCUPIED BY NAYLOR'S BOOK STORE. HOURS FROM 7 TO 9 P. M.

Don't wait any longer to get that poultry fence—you need it NOW. We have plenty of it.—Hickman Lidw Company, Inc.

ON YOUR ICE BILL

No ice will be charged. The drivers will either collect cash or coupons. Don't expect them to credit you, for they will be charged with each book, and will have to account for the ice they take out for delivery.

This rule will not apply to soda fountains, butcher shops, fish docks and other large users of ice, as their accounts will be on file at our office.

This is too good to keep. A comedian at the Lyric one night last week asked another what became of Noah's ark. His answer was, "they're using it for McCutcheon Row." There are several Noah's arks around this borg that the city duds should order torn down. We have a law against common nuisances and we think the law is violated every day that some of these shacks stand.

SPECIAL NOTICE.

Owing to the large number of complaints coming in about out houses, etc., in the city, it becomes our duty to notify all parties to clean up and put in a sanitary condition all such places. Former notice was ignored, and if this warning is not promptly heeded, legal steps will be taken to enforce the law applicable to such cases. Why not take kindly advice and save a doctor's bill?

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its own work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send list of testimonials.

Hickman seems to have developed a new form of "Night Rider," who rips open automobile tires with a pocket knife. C. T. Bonduant had this experience Sunday night when he left his car for a few minutes to go into a store. The car was standing in front of Baltzer & Dods' store. When Mr. Bonduant came back he found one of the tires flat and a gash in it eight inches long. The man who is doing this trick is "skating on mighty thin ice." If caught, he is liable to get the worst of a bad bargain.

Next to China, Hickman has some of the narrowest streets of any city in the world. They have been the result of unavoidable circumstances, but it doesn't follow that some citizens should have their fences almost in the middle of the street, or that others should usurp the whole thing for private use. MADE PROMISE OF SECRECY

Therefore Caller Could Only Guess
Who Had Taught Youngster to
Stand on His Head.

"The venerable countess of Cardigan, the author, you know, of that wicked book of memoirs, thinks the modern girl is too athletic and boyish," said an English visitor to New York.

The countess of Cardigan often tells of a young man who was drinking tea with a beautiful girl when her little brother slipped into the room.

"Mr. Manning," the boy asked, "can you stand on your head?"

"No," said the visitor laughing, "I don't believe I can."

"Well, I can," said the boy. "Look here."

"And he stood on his head very neatly in the corner."

"Ha, ha!" laughed Mr. Manning. "And who taught you that?"

"The urchin frowned."

"Sister," he said, "told me I must never tell."

It Made No Difference.
Congressman Randal of Louisiana recently told a story of Alec Trimble, the valet and factotum of a physician in New Orleans, who took a fancy to one of the summer shirts of his master, and finally went and bought one exactly like it. He showed it to his mistress, who said that he had done wrong, as the two shirts might get mixed in the washing; and Alec answered:

"It'd make no diff'rence, missus, 'cause dey's both alike la size an' price."

They Surely Would.
A little American boy with his father was visiting a market in a Mexican city. He saw a little native girl with a small handful of red peppers, of which she was eating one. His father was about to say: "She thinks she is very smart," as the son called his attention to it. The boy spoke up quickly, knowing what was to be said: "Pa, would those red peppers make you smart if you eat all of them?" His father replied: "Yes, son."

WASHINGTON GOSSIP

Boy In Knickers a Wireless Wonder

WASHINGTON.—Grave, gray-bearded members of the United States senate committee on commerce listened recently with respectful attention to the arguments of a 13-year-old boy in knickerbockers whose head barely topped the table which separated him from his dignified auditors.

The youthful orator was William E. Stokes, Jr., of New York, and his theme was wireless telegraphy and telephony. He is president of the Junior Wireless Club of America, Ltd., and he is opposed to certain features of the Depew bill, which provides for government regulation of wireless telegraphy.

Master Stokes said the members of his organization were amateur wireless telegraphers, all of tender years. He told the committee that the boys favored a nominal license fee for wireless operators, the license to be revocable for "malpractice."

The boy lobbyist's voice was youthful, but his words were those of a grown man and a scientist and his bearing amply bore out his claim to be a prodigy. However, they paid respectful attention to his arguments and ap-

peared impressed by what he said.

When he had finished his argument against the bill the boy turned prophet. He said that in ten years it would be possible for persons on land to communicate with distant points by wireless.

"If a man has an automobile break-

down 25 miles from home, ten years

from now," he said, "all he will have

to do will be to take out his wireless

kit, call up his butler and tell him he

will not come home to dinner."

Master Stokes also informed the members of the committee that foreign nations were far ahead of the United States in the development of wireless telegraphy and blamed the era of wireless stock exploitation this country has experienced. He said there were between 25,000 and 40,000 boys in the United States interested in wireless telegraphy and expressed the belief that their experiments would prove of great value to the nation in the future.

Young Stokes is the son of the proprietor of the Ansonia apartment hotel in New York, and will be remembered as the first person to devise a receiving box for the interception of wireless telephone and telegraph messages.

This device was perfected in September, 1905, on the roof of his father's hotel. It was the result of long and secret experiments in which the boy was unaided. When his invention was examined by wireless experts they pronounced him an electrical prodigy.

Animals In Kitchen Peril to Health

INSECTS play a large part as mechanical carriers of disease and none is worse than the common house fly, yet it is allowed to infest meat exposed for sale, bread and sweetmeats, berries, the edge of the milk pail and the food on the kitchen table.

The keynote of cleanliness is especially sounded with respect to keeping pet animals in the kitchen. The fur of the cleanest of them must come in contact with many things which we would not care to have touch our food.

This information is imparted in a bulletin issued by the department of agriculture, prepared under the supervision of the office of experiment stations. It is entitled, "Care of Food in the Home," and is for free distribution.

Its author, Mrs. Mary Hinman Abel, has advanced many new ideas and called attention to many simple house methods that make for cleanliness and wholesomeness of foods in the home.

Mrs. Abel thinks ordinary kitchen methods fall short of today's requirements, especially with respect to sanitary science. The old fashioned habit for dirt is not enough. This applies especially with respect to the cleaning of kitchen utensils. For instance, boiling has long been known to kill whatever was the cause of "spoiling" food. However, most housekeepers did not "boil out" the milk cans, etc., but simply scalded them.

Smoke as They Discuss Tobacco's Harm

WITH smoke curling from their various flavored cigars, heart specialists from throughout the country who recently attended the congress of American physicians and surgeons gathered in Washington to discuss whether the prolonged and excessive use of tobacco meant "sudden death."

At the close of a lengthy debate they were far from reaching an agreement as to what was the real effect of the use of tobacco on the heart.

Dr. H. L. Eisner of Syracuse, N. Y., introduced the subject by discussing the influence of tobacco on hypertension in the circulatory system. Smoking in moderate amount by grown persons might not be injurious, he said, but he expressed a belief that smoking was injurious to those who had hereditary heart afflictions.

Dr. Judson Daland of Philadelphia

told of a family of four whose parents had died of causes other than angina pectoris. Three of the brothers, cigar manufacturers, who were compelled to smoke more than 20 cigars a day, developed angina pectoris, while a sister at the age of 52 never had suffered from the disease.

So for the anti-tobacco men had had

the floor. Dr. R. G. Curtis of Philadelphia rose to stem the tide. He told of 60 cases of angina pectoris, in which seven of them were in female subjects.

"Women commonly do not use tobacco," said he, "although I hear recently they are taking it up."

He pointed to Japan, "where boys begin to smoke at nine and girls at ten, and where angina pectoris is not common," to prove that tobacco did not cause the disease. He said it might aggravate the disease but not cause it. So might the mind, for that matter, he said. He told of an Episcopal bishop who always had an attack of angina pectoris when he drove up hill and of another patient who was accustomed to have an attack of this disease when he ran for a street car.

The Valuable Match.

There was a loud splash, and a moment later a dripping head appeared above the waves. On the end of the dock was a stevedore nonchalantly lighting his pipe.

"Help, man!" cried the chap in the water. "Can't you see I am overboard? I can't swim."

"How often have you been down?" asked the stevedore, shielding the flickering match from the wind.

"Once, I believe, but hurry up, man! Give me a hand!"

"You wait! You have two more times yet to go down, and I have only one match. I'll catch you on the last trip."—Exchange.

SOUTH'S POSSIBILITIES

CAN BE MADE GREATEST CORN PRODUCING SECTION.

Presence of the Boll Weevil Is Driving Southern Cotton Planters to Diversification.

Washington.—That the South can make the greatest corn producing section of the United States and that the presence of the boll weevil in certain cotton growing sections is driving the farmers to intensive and diversified farming, which, with crop reform methods, will result in a new and better era for the agricultural South, were the significant statements made by Dr. Seaman A. Knapp, chief of the division of farmers' co-operative demonstration work, department of agriculture.

The fact that a boy in South Carolina produced 152½ bushels of corn to the acre, when the average yield throughout the state was only sixteen bushels to the acre, was cited by Dr. Knapp as physical proof of the possibilities of corn production in the Southern states by the improved methods of cultivation by the department of agriculture in Virginia. He said 900 acres under the improved demonstration methods had yielded an average of forty-one bushels of corn to the acre. In Alabama, Mississippi, Tennessee, Texas, Louisiana and Arkansas, he said, results similarly significant had been achieved, and it is the opinion of Dr. Knapp that the Southern states can be made to yield an average of forty-five bushels of corn to the acre. This increased production depends upon the application of improved methods of soil cultivation and attention.

Dr. Knapp said the special work to be conducted by his bureau in the states of Mississippi, Louisiana, Texas, Arkansas, Alabama and Tennessee related to the extermination of the cotton boll weevil, which he seriously regards as having been instrumental in bringing about reforms in farming that will greatly increase the revenue to be derived from the Southern farms.

The invasion by the boll weevil and the apparent intention of the little pest to make his stay indefinite, has caused planters to diversify their crops and to farm generally along intensive lines.

SPITZER SAYS HE'S A FOOL

Hesitated to Give Evidence "Leading to Cemetery."

New York.—Oliver Spitzer, former superintendent of the docks of the American Sugar Refining Company in Williamsburg, Brooklyn, who recently was pardoned from the penitentiary by President Taft, explained Wednesday why he did not confess during the trial, which ended last February with his being sentenced to two years at Atlanta.

Such a confession, he declared on the stand, would have carried him to a cemetery. In other words, he would have implicated a dead man—Henry O. Havemeyer, head of the sugar trust. "Why did you not tell the truth in the first place?" he was asked.

"Every time I look in a mirror, I see a d—d fool," was the answer. "I was a fool not to do it, but was ashamed to let any one know that I did these things. My credit was good. I could get anything and I did not want people to know that I was fool enough to do these things for nothing. I got nothing of it."

"Another reason why I committed TWO P.C.O.—Thursday... . It... . perjury was because I thought nothing could happen to the sugar trust. We all thought the trust was so strong that the government could do nothing with it."

NICARAGUA DEFIES UNCLE SAM

Force From Gunboat Venus Search an American Vessel.

Bluefields.—A Nicaraguan government force from the gunboat Venus boarded and searched the American schooner Estuero, flying the Stars and Stripes. The action was in defiance of a ruling from Washington that the Venus had forfeited her right of search.

Following the search the Venus and the other Nicaraguan gunboat, San Jacinto, were seen approaching the Bluefields bluff. The American gunboat Pauline and Dubuque were lying off Bluefields and it was expected that their commanders would take prompt action.

A MINISTER'S CONSTIPATION

Rav. Kemp Tells of His Digestive Troubles and How He Overcame Them—You Can Do So Free.

The lack of exercise in a minister's life makes him very prone to constipation, but for that matter, most everybody is constipated now and then. It is the national disorder.

Many already know that a sure remedy for constipation is Dr. Caldwell's Syrup of Peppermint, which comes in a small bottle and has been buying for twenty years. Rev. J. A. Kemp, Pres. of Indiana Conference of the Methodist Episcopal Church, says:

"For years I have been a victim of constipation, but I have never found anything to equal Dr. Caldwell's Syrup of Peppermint. I also had indigestion and heart trouble. I can certainly recommend it."

It can be bought of any druggist at 50 cents or \$1 a bottle. If there is anything wrong with your case that you don't understand, write to the doctor. If you have never used this remedy, and would like to try, send your address and a free sample bottle will be forwarded to your home. Address Dr. W. B. Caldwell, 201 Caldwell Bldg., Monticello, Ill.

For the Critics.

Creston Clark, whose untimely death at Asheville robbed America of a serious and capable actor, was somewhat impatient of criticism. To a Philadelphia critic he once said:

"You chaps are unwilling to accept a man for what he is. You want to change him to your own taste. But each of you has a different taste. To whose inclination, then, is he to be left?"

"No, no! Take the artist for what he is. That is the right critical attitude. Don't be like the farm urchin I once saw—an urchin who, as he heard a frog to death, repeated severely:

"I'll learn ye to be a tond!"

God Knows.

There are graves in southern valleys where the sweet magnolia blooms, Where the birds sing in the morning o'er the soldier's lonely tomb; There are graves on northern hillsides lapped in the winter's snow, Who are the lonely sleepers, but God alone may know.

It may be your blue-eyed darling, oh, mother with snowy hair, Who marched at his country's calling, so young, so brave, so fair In the flush of his glad young manhood, he left you long ago, If he be the lonely sleeper, there is none but God may know.

Oh wife that mourned the lost one through all those lonely years, Whose heart is weary waiting, whose eyes are dimmed with tears, It may be the one that left you to bravely meet the foe In the valley or on the hillside there is none but God may know.

We only know that they are sleeping, our brave and gallant dead; Unnamed their places of slumber, no stone at foot or head To tell the weary watcher whether this be friend or foe.

Who sleeps the sleep that knows no waking, but God alone man know

Then bring the fresh, sweet blossoms on mothers with hearts still sore O'er the loss of the blue-eyed darling Whose footfall is heard no more; Though thy hands may scatter the blossoms upon a stranger's breast Some hand and some heart as tender may deck thy darling's place of rest.

You, scatter the fresh spring flowers alike o'er each lowly head; Little, indeed, to us it recketh, who are the silent dead, Asleep 'neath Magnolia blossoms or lapped 'neath northern snows, Let our hearts breathe the glad thanksgiving, thank God, our Father knows.

A Southern Woman's Tribute to Heroes Both Blue and Gray.

It was just a bunch of white roses, but the ribbons that tied it together told its history—one was blue and the other was gray. It was to be placed on the grave of a boy who had fought for what he believed was right and the gentlewoman who was to put it there believed that all animosity had passed by, and the blue and the gray might be firm friends. So the bunch she carried for her own boy's grave was tied up in this way and in her hand was another one tied the same; it was to be laid upon the grave of a stranger. That stranger whose name was even unknown to her, had died fighting like a brave man, and therefore deserved to be remembered and to have tribute shown to his courage. We think it a beautiful idea—this one of decorating the graves of all the soldiers, but we like it better when the custom is carried even further, and when not a grave in the cemetery is overlooked.

It seems to us a goodly and proper thing for the living to remember the dead, at least once a year, and it seems a kind and loving thing to mark this remembrance with sweet flowers. As a people, we are not very emotional, and if there is any way in which we can bring our kind-

ness to the surface, it should be done, and so the encouragement of the day sacred to the memory of those who have gone before is worth of much consideration. Decoration Day must essentially be one entirely free from any feeling but that of generosity and loving kindness. It does not make any difference which side a man fought on—he died for what he believed was right, and for that reason he deserves to be remembered by those who are living. Decoration Day ought to mean the union of the gray and the blue; there ought to be a flag for that purpose for the colors blend so beautifully that the result is exactly the tint of heaven itself. We wonder if you despise all the funeral trappings—if you wish more respect shown to yourself dead than you might possibly demand alive—and when the long years have gone by, you would not like somebody one a year to place a flower on your grave, to show that you were still in touch with humanity. No matter who is it; if it is the woman whose life was soiled, if it is the man whose death was shameful, or if it was the soldier who was fighting for his country. Just remember that not one of them can defend themselves now, and that neither of us can judge them.

Start out to make God's acre beautiful; take the crimson roses of love, the white ones of innocence, the lavender heliotrope of devotion the blue forget-me-nots of never dying memory the lilles of purity, and strewing them all about here, there and everywhere, make the day one of absolute union—union of hearts, union of feeling and union of remembrance. That is what Decoration Day should be.

And all those soldiers who lie sleeping, those who fought not only on the battle ground of dispute, but in the greater one of life, will, when the trumpet call rings out its summons on the great Judgment day, each stand before the Great Commander, ready to answer the questions put to him. And be sure he will not ask his neighbor, "Did you wear the blue or the gray?" But, instead, he will say: "Brother, we have fought the good fight and my God, in His infinite mercy, judge us."—H. A. H.

The man or woman who accomplishes some worthy object—however humble it may be—for the pleasure of so doing, reaps the full enjoyment of life.

Jackson Given Respite—

Sheriff George W. Cupp received first a telephone message from Governor Herbert S. Hadley Wednesday, saying the negro, George Albert Jackson, now in jail at Charleston, and was to have been executed Friday, was given a two weeks' respite. The official notice reached Sheriff Cupp Thursday morning and gave Jackson a respite until June 10.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

 Pitchville, Ohio.—"My daughter was all run down, suffered from pains in her side, head and limbs, and could walk but a short distance at a time. She came very near having nervous prostration, had begun to cough a good deal, and seemed melancholy by spells. She tried two doctors but got little help. Since taking Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pill, she has improved so much that she feels and looks like another girl."—Mrs. C. Cole, Pitchville, Ohio.

Trasburg, Vermont.—"I feel it my duty to say a few words in praise of your medicine. When I began taking it I had been very sick with kidney and bladder trouble and nervous prostration. I am now taking the sixth bottle of Lydia E. Pinkham's Vegetable Compound and find myself greatly improved. My friends who call to see me have noticed another girl."—Mrs. A. H. Sanborn, Trasburg, Vermont.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
